## PROFILE

As a Growth-minded Web Developer with 3+ years of experience in PHP, HTML, CSS, and MySQL, I am dedicated to continuously expanding my skills and knowledge. I recently graduated from JSD4 with expertise in MERN Stack technology, and I am excited to apply this knowledge to new projects. I am a team leader and team player with excellent communication and collaboration skills, committed to delivering high-quality work that exceeds expectations.

## WORK EXPERIENCE

### Web Developer
AMI AsianCodingSystem Group                                     *2018 - FEB 2023*

- Collaborated with clients to understand their requirements and developed solutions to meet their needs
- Designed and developed complex database structures using SQL, ensuring efficient data storage and retrieval
- Implemented responsive and visually appealing user interfaces using HTML, CSS, JavaScript, and Bootstrap
- Developed and maintained backend systems using PHP, CodeIgniter, and Laravel frameworks, ensuring efficient and optimized code

### IT Support (apprentice)
AIMS(Suvarnabhumi Airport)                                      *JUN - SEP 2017*

- Provide exceptional technical support to 50+ users by troubleshooting hardware and software issues, and resolving them in a timely manner
- Setup and configure new computers for employees, ensuring seamless onboarding experience
- Identified and resolved bugs, enhancing system efficiency and reducing downtime

## CERTIFICATE

### Junior Sofrware Developer Program Cohort 4
Generation Thailand.                                            *FEB - MAY 2023*

- Developed proficiency in HTML, CSS, JavaScript, and the MERN Stack(MongoDB, Express, React, Node.js) through intensive training.
- Led a team in building an exercise tracking project using MERN Stack
- Built project structure and created mongoose schema to organize data
- Coded the frontend using the React framework and backend using Node.js (Express)
- Collaborated with team members to design and implement project features that met client requirements and user needs
- Agile methodologies and project management tools such as Git, Trello, and Slack to collaborate with team members and effectively manage work progress.
